MBA 2019 Admissions @ the Department of Management Studies (DoMS), IIT Madras

Greetings from the Department of Management Studies (DoMS), Indian Institute of Technology Madras!

I am pleased to inform you about the MBA 2019 admission process of our institute and invite your students to consider applying to this program @ DoMS.

DoMS was established in the year 2004 at IIT Madras to cater to the burgeoning demand for quality management education in the country. We offer a 2-year full-time residential Master of Business Administration (MBA) program.

Students at DoMS are provided with a well-balanced learning experience through a planned curriculum which includes case studies, guest lectures and regular interaction with industry executives among others. The curriculum follows the quarter system of study

The department continues to maintain its excellent placement record of one hundred percent by attracting the globally reputed companies to visit and recruit the students of DoMS. We also have student exchange programs with the leading business schools abroad.

The business festival *Samanvay* is organised by the students every year. Students also receive extra-curricular and co-curricular learning through clubs and forums.

MBA at DoMS is open to graduates from all disciplines with a valid CAT score.

The application process will begin in the second week of January 2019.

I request you to kindly display the attached posters in prominent locations in your institution for the benefit of your students.

Additional details about the department and the program are available at: www.doms.iitm.ac.in

Thanking You,

Best Regards,

(Dr. L. Prakash Sai)
