- Collected plastic bottles from scrap shops and waste in college.

Anubhav Gupta- President (2021-22)

Progress made during Anubhav's tenure:

•Donation Drive organised by Project Udyam

We collected old cloth material from students, so as to repurpose the same into the production of scrunchies by skilled yet unemployed women at Pragati Maidan, and help them gain financial independence through the same.

•Women's day celebration at Pragati Maidan

Our team visited the women, to interact and spend some quality time with them. We played Tambola with them and distributed gifts to celebrate them and make their day.

•Project Udyam conducted a session on the 'Importance of Financial Independence'

We conducted this session with the purpose of educating women from Rural Background on Sustainable Business and Financial Independence. The session delivered important lessons to the women and facilitated our interaction with them.

•Jazbaat collaborated with Project Ukiyo, and Friends Society, Hindu College and had its first offline session

We assembled together at the Lodhi Gardens and had a session on 'Log kya kahenge' where we discussed the importance of prioritising ourselves, what people say and how it affects our mental health. It was an insightful session in the calm and amiable lapse of nature.

•Project Jazbaat conducted a series of webinars addressing important matters relating to mental health

We brought on board various psychologists and counsellors to deliver sessions touching various topics including, 'Men and Mental Health', 'Anger Management', 'Attachment of Past', 'Dealing with Criticism', 'Self-Love' and more, so as to make professional knowledge accessible to our audience and add value to their lives.

•Dream Library continued to provide quality education to underprivileged children, even during the pandemic

Our volunteers switched to online mode, to keep on with teaching kids and made sure they aren't lagging behind. Now, we conduct classes in both, offline and online mode, so as to reach even students living far away and make education accessible to maximum children.

•Collaboration with a new NGO:

In Project Dream Library, there was an increase in the no. of community visits, and we got the opportunity to collaborate with a new NGO named 'Rhythm of Life' in Chanakyapuri. We were able to educate underprivileged children by conducting both online sessions and offline visits.
