Teachers use ICT enabled tools for effective teaching-learning process

Since the first lockdown, the college and its academic staff is working in a mission mode to cater to the academic needs of the students in a holistic manner. This is being done through an inclusive approach comprising of available ICT tools and other innovative mechanisms. All the teachers are using ICT skills for all their student centric approaches- be it academic, administrative, emotional and intellectual. This has produced desirable results as more and more students showed participation intent. Covid situation and subsequent lockdowns have been a kind of blessing in disguise as many of the students coming from rural and semi-urban areas, where they could not get an opportunity to use ICT tools to their fullest, are now able to make use of such tools to an optimum level. The intent of our college towards ICT can be understood from the fact that we conducted one week faculty development program on ICT itself long back in 2009. Similarly, the use of ICT is not just about teaching -learning but also about user-college interface. The college administration, accounts, and other stake holders are using ICT to the maximum.

Officiating Principal
