TERI

The Principal

Motilal Nehru College,
Benito Juarez Road,
University of Delhi
New Delhi- 110021

Dear Sir,

It gives me immense pride to congratulate the students and faculty member of Motilal Nehru College for winning the Genpact Campus Impact Award, First Prize for the project 'Be Desi Adopt A Desi Campaign' implemented as part of Campus Impact Challenge (2015-2016).

Campus Impact Challenge is an inter college competition from Delhi NCR colleges for a year with an aim to identify sustainability challenges in their campuses and come up with collective social and environmental solutions. This programme is under the aegis of LEADearthSHIP - a collaborative effort of TERI and Genpact on leadership and business sustainability.

We look forward to your support and cooperation in our future endeavors.

Thanking You

Warm Regards

(Ragini Kumar)

Applicant Name

Lakshita Shee

Project Name

Project Desi from Enactus Motilal Nehru College, University of Delhi (Day)

Are you a previous grantee of The Pollination Project?

No

Are you willing to provide a reference for this applicant?

Yes

Section Break

Your First Name

Anu

Your Last Name

Pandey

Your Email

anupandey@mln.du.ac.in

Your Organization

Motilal Nehru College, University of Delhi

Your Role at That Organization

Faculty of Commerce

In what capacity do you know this applicant:

I have known Lakshita for more than two years now. I have known her as her teacher and as faculty advisor of Enactus, Motilal Nehru College.

Your reference for this applicant:

Lakshita is a very hard working girl. She and her team are working on Project DESI which stands for Duty to empathize, sterilize and immunize stray dogs. Indian street dogs are living in the most deplorable conditions and except for few NGOs and municipality not many people are working for them. There are two basic reasons for this problem: The negative mindset of the people towards the dogs and dog overpopulation. Hence, project DESI is the need of the hour. Project DESI aims at curtailing the dog overpopulation with people's participation and community involvement. This will eventually help in controlling dog population and in changing the negative mindset of the people towards them. Lakshita and her team are aiming to create a better world for these voiceless beings. And I believe that Pollination project will definitely help them in realizing their cherished dream.

Dear Lakshita Shee,

We are thrilled to let you know that our team has completed review of your project and has decided to award you a grant of \$1000 in support of your work.

The next step in our grant process is for you to complete this [this form](#) to submit the information needed to produce your contract.

We look forward to welcoming you to our community of grantees in over 119 countries and watching your project grow over the coming months.

Congratulations once again!
The TPP team

P.S. [Here, you can download a pdf guide](#) to the information that we will request in the online form - please do not send this sheet back to us. It is simply designed to help prepare you to complete the form.
